

## Notice To All MAASMC Members:

In order to make competition more competitive at Virginia Beach, MAASMC is considering changing the classes.

The classes would be based on the average times run in the obstacle course over the past four years in competition, rather than the type of equipment used.

The new alignment will allow for more competition in each class. With the current units there would be at least three units in each class.

Do you agree or disagree?

What concerns would you have if this was done?

It will be discussed at our meeting in Virginia Beach on September 8, 2011.

It will NOT be done for this year's competition!

All questions and concerns should be sent to: Dale Zimmerman  
Secretary/Treasurer  
[Maasmc@comcast.net](mailto:Maasmc@comcast.net)

Or let your unit head know so he can convey your wishes.

Thanking you for your consideration and cooperation,  
Tom Kennerly  
2011 competition chairman
